

## Heat-Transfer Printing Machine

VST2022

VST系列热转印机采用热媒体辐射原理,使用进口铸件、零部件生产.具有微电脑控制,操作简单,光电跟踪,自动化程度高等特点.是一种新型的表面装饰机械,广泛应用于文具、化工、电器、家庭用品等表面装饰。

The VST series heat transfer machine ,which adopts the principle of hot media radiation,is made from imported cast iron and accessories.It was controlled by microcomputer and tracked by photoelectricity ,so you may operate it automatically and easily.As a new kind of incrustation machines, It was widely applied in incrustation ,stationery , chemical industry,electric appliance ,housewares and so on.
